Owners: Boyd & Allison Meyer 970.396.2249
Cheyenne, Wyoming

Auction Terms and Conditions

METHOD OF PAYMENT: Terms of sale are cash, bankable check, cashier's check or bank money order. Personal checks will be accepted from first time buyers only if accompanied by bank Letter of Credit stating a specific amount the bank will guarantee on a check. Bidders using Quality Auction Services online services will pay via wire transfer directly to the association, no later than end of the business day on Monday, February 10, 2020. Please register for bidding prior to the auction. Go to qas.hibid.com for details and instructions. Payment must be made in full on auction day.

HEALTH: Interstate health papers will be furnished for each animal. All heifers are Official Calhhood Vaccinates (OCV) and all bulls and heifers have been TB and Brucellosis tested and given injectable wormer. All heifers are certified open and all bulls have a good semen test.

ANNOUNCEMENTS: Announcements made on sale day will take precedence over any printed material in the catalog or any prior advertisements.

GUARANTEE: All animals are guaranteed as represented by owners. The DTBA, Auctioneer and Sale Management act only as agents. Any guarantees are strictly between the consignor and the buyer.

LIABILITIES: DTBA acts only as agent and will assume NO RESPONSIBILITY in the event of injury or death to an animal or of a discrepancy between the buyer and the consignor. The consignor bears all risk of injury or loss for each buffalo until the Auctioneer announces it is sold. Thereafter the buffalo is the property of the buyer and the buyer thereafter bears all risk of injury or loss.

SALE ORDER: Young Guns bulls will sell first in catalog order, followed by the Girlz Going Wild heifers, in catalog order. Order shown in catalog is the order of placing in the class.

LOAD OUT: A paid in full receipt will be required for load out. All animals must be removed from the holding site by 12 noon on Monday, February 10. If animals are not removed by the deadline, a \$100 per head per day fee may be imposed until animals are removed. Online bidders need to make payment and transportation arrangements prior to bidding!! Please be aware that health certificates for many of the animals will expire within a few days of the sale date. Should any further testing be necessary to move your animals, the owner will be solely responsible for costs and arrangements.

Every precaution will be taken for the welfare of the buffalo sold. The DTBA, Auctioneer and the Show and Sale Committee and workers assume NO RESPONSIBILITY for accidents or losses that may occur.

ONLINE BIDDING IS AVAILABLE FOR THIS AUCTION. VISIT WWW.QAS.HIBID.COM

ALL LOTS ARE LISTED WITH PHOTOS, VIDEO AND DATA. VIEW LOTS AND REGISTER TO BID.

-
- ~ Thanks to our host ranch and consignors for continuing to support these classes
 - ~ Thank you to our Girlz Going Wild judges, Jud Seaman, Ben Fox and Jamie Hepper
 - ~ Thank you to the Young Guns judges, Dave Lutt, Jeremy Alleman and Robert Johnson
 - ~ A big thank you to Kevin Leier for the photographs and video of the auction animals
 - ~ Thank you to Karen Conley for the catalog cover photo and catalog production
 - ~ Thank you to Todd Goetz for advertising and catalog cover design

BISON — LOVE — REDMOND MINERALS

Here at Redmond, we understand what it feels like when your animals are healthy and productive. That's why we offer premium products that let you get back to what you love about raising animals instead of worrying about their health.

**FINALLY, A MINERAL
PROGRAM THAT YOUR
BISON WILL LOVE.**

Palatability

This is the mineral bison love to eat. It's foundation is Redmond sea salt which is nature's balance of over 60 trace minerals. Bison are drawn to it.

Cost/Value

Get the minerals and the salt all in one package that the bison love and at a cost that won't break the bank.

Reproduction

The natural form of these minerals causes the animals to do better and reproductive efficiency is one of the first sign of that. This is where the value for the cost of the mineral really shines.

REDMOND BISON PRODUCTS

TRACE MINERAL SALT

Redmond Bison 90

Mineral consumption for bison is often a challenge. Bison 90 is a sweetened premium mineral salt with over 60 natural minerals and bison love it. Bison 90 has 90 ppm of added selenium, copper, manganese, cobalt, iodine and zinc. Several of the most respected bison herds in North America are on this mix.

GUARANTEED ANALYSIS

	MAX	MIN		MIN
Calcium	0.85%	0.35%	Copper	300 ppm

Cammack Buffalo Ranch

John, Melanie, Lane & Mike Cammack • 16800 Old Stoneville Road, Stoneville, SD • (605) 985-5289

The Cammack Buffalo Ranch is operating in the 5th generation and is located in Stoneville South Dakota. John manages the ranch with his Uncle Lane. His Dad, Mike, lives in Alaska acting as the not-so-silent partner. John and Melanie's four kids work alongside as they learn how to take over in the future. We bought our first 30 buffalo in 1999 and have slowly built our herd to 420 cows. One of the great cow herds that we purchased was the Colorado Bison Company's complete herd dispersal. We have purchased bulls from around the country searching out top performance animals to continue to build a strong and functional herd. We love to improve our herd as we go through a strict culling program while allowing the buffalo to do their thing on the rolling western South Dakota prairie. We have our own performance tests we do on the ranch to help with the culling process. Please see our web site for more information www.cammackbuffaloranch.com or email John at bowhunter4life@goldenwest.net.

Canyon Creek Bison • Cayden Meyer • Cheyenne, WY • (970) 744-9326

Cold Creek Buffalo Company

Boyd & Allison Meyer • PO Box 82, Windsor, CO • (970) 396-2249

The origins of animals at Cold Creek Buffalo, founded in 2002, came from reputable herds from around North America. Tatonka Ranch, Wolverine Bison, Le Grande Ranch, Slim Buttes and Red Canyon are where the seed stock animals came from that have built Cold Creek into a premier breeding stock producer.

Cold Creek Buffalo DNA tests their breeding herd to identify superior genetics from both their cows and herd bulls. These genetics are then evaluated through their performance tested program to ensure the best traits are carried forward. Boyd is an avid supporter of the DTBA performance tested classes which allows producers to gauge their breeding programs against other top ranches in the United States and promote the importance of offering top quality breeding stock to producers.

Custer State Park

Chad Kremer, Herd Manager • 13329 US Hwy. 16A, Custer, SD • (605) 255-4515

Custer State Park has been producing quality buffalo since 1914. We have the longest running annual buffalo production in the world since 1966. Our buffalo are given standard vaccinations as calves, after that they are naturally raised without any vaccinations unless needed. Foundation of the Custer State Park herd is from the Scotty Phillip/Fred Dupree herd with genetic additions including the Wind Cave National Park herd. Custer State Park has been and continues to be, the foundation source for numerous private herds over the last 50 years! Animals are naturally range raised, supplemental mineral. Our Young Gun entries earned 3rd place in 2009 and 2011.

Heart River Bison

Doug Paulson • 11724 13M Street SW, Manning, ND • (701) 573-4560

Started in 1994 with bull and 3 cows. Currently running 80 cow calf pairs. Animal backgrounds include Durham Ranch, Teddy Roosevelt Natl. Park, Cold Creek Buffalo Co., and Mosquito Park genetics. Selling breeding stock, calves, butcher stock.

Heartland Bison Ranch

LeeAllen & Rebecca Leier/Kevin & Anne Leier • 4525 Highway 3 S, Rugby, ND • (701) 542-3325

Heartland Bison Ranch, established in 1996, is a cow calf operation run by LeeAllen and Kevin near Rugby, ND. Both LeeAllen and Kevin strive to produce animals with consistent strong weaning weights and all around solid gaining ability in both grass and grain scenarios. Heartland Bison uses a select set of cut weights and target numbers to help determine which animals are "eaters" and which are "breeders" because the difference is important in order to maintain a high quality herd. Our bull battery consists of bulls from Slim Buttes, Cammack Buffalo, Jumpoff Buffalo, Heartland Bison, Sheyenne River Bison and Silver Creek Bison. These sires have given us a mix of genetics that continue to serve our focus as we move into the future.

Heim Land & Bison

Alex & Cassie Heim • 26727 266th St., Wood, SD • (605) 770-6190

Heim Land & Bison is owned and operated by Alex and Cassie Heim just outside of Wood, SD. Thunder Creek runs through the heart of the ranch making it a bison paradise. We have dispersed our 400 head of mother beef cows and continue to grow our bison herd. We strive to add new powerful genetics to our herd each year. We have bought bulls and females from the GTSS and the DTBA performance tested classes. We are strong believers in the performance tested animals and have enjoyed participating for the past two years. Along with our bison herd we operate two bison feed yards. We find it very important to produce a quality and consistent product into the marketplace for many people to enjoy!

Holcomb Buffalo Ranch

Zane Holcomb • 10738 Holcomb Place, Buffalo, SD • (605) 375-3478

Located in northwest South Dakota, Holcomb Buffalo Ranch has been raising buffalo for a quarter of a century on the family-owned ranch. The herd at Holcomb Buffalo Ranch thrives on fresh water, good hard grass and mineral supplements. They are fed hay and a little cake in the winter as needed. The cow herd is amassed from many different producers, with a blend of solid genetics being the goal. All the breeding bulls are from Slim Buttes Buffalo Ranch.

Lone Tree Bison • Gavin Meyer • Cheyenne, WY • (307) 414-0944

2020 CONSIGNORS

Jumpoff Buffalo Ranch

Scott & Jon Peterson • Cody Kloeckl, Mgr. • PO Box 213, Belle Fourche, SD • (605) 641-7776

Jumpoff Buffalo Ranch is located Harding County, SD, the heart of buffalo country. The ranch name derives from the expansive mud buttes and landmark mini-badlands known as The Jumpoff. Our first animals, 150 heifer calves, were purchased in 1997. Our herd originated from the Slim Buttes Buffalo Ranch herd. We purchased our first heifer calves from Slim Buttes in 1997. Our current bull battery consists of bulls that have come from performance tested and genetically proven production animals. Approximately 80% of our bulls have been purchased through the DTBA Young Guns Yearling Bull Challenge program.

Jumpoff Buffalo Ranch has been the recipient of many awards and our animals have placed everywhere they have been shown, including the WBA Wild West Stampede Show and Sale, the NBA Gold Trophy Show and Sale and the DTBA Black Hills Buffalo Classic Show and Sale. Additionally, we were a \$10,000 DTBA Reality Based Carcass Class winner with our bull entry and named the Black Hills Buffalo Classic Producer of the Year in 2013. Purchasers of our animals continue to show genetic success within their programs.

We have continually purchased the top bulls in the Black Hills Buffalo Classic Young Guns Yearling Breeding Bull Challenge since its inception. This has helped to build a solid genetic base in our herd with results showing in our calf weaning weights and in our feeder animal gains.

McFarland Ranch

Steve, Roxann, Ashley & Paden McFarland • 15807 Ellingson Road, Hettinger, ND • (605) 564-4672

McFarland Ranch / Horse Creek Bison is a fourth generation bison and cattle operation located in northern Perkins County, SD. Great Grandpa Frank McFarland started our herd with four heifers and one bull calf back in 1954. Today, we run close to 100 head in conjunction with Rafter K Bar, Larry and Renee Carr, of Prairie City, SD.

Our animals are on a complete health program, they are fed free choice mineral, pasture grazed and supplemented with grass hay when needed. Some of our genetics include herd bulls from Larry & Dixie Byrd, bred heifers and bulls purchased at the Black Hills Buffalo Classic, and some of our own home raised bred heifers and bulls. One of the bulls we are currently using is from Cold Creek Buffalo Company. We have received the Grand Champion Heifer award in 1999 and the Grand Champion Bull & Grand Champion Heifer awards in 2007, over the years, we have placed with 3 Golds, 2 Silvers and 6 Bronze on our show animals in various classes, Most recently taking home 2nd place in the Girlz Gone Wild Class in 2018. Contact Steve or Paden for private treaty sales and hunts.

Rafter K Bar

Larry & Renee Carr • 16184 US Highway 20, Prairie City, SD • (605) 381-7605

The family-owned ranch was purchased by my father, Keith L. Carr, from the Carlsons in the mid-70s. The ranch was home to pigs, sheep, horses and later, Angus and Highlander cattle. We eventually made the switch to buffalo on the ranch and have never looked back!

All the animals on our ranch are raised on grass in the summer and quality prairie hay in the winter, with good mineral supplementation and annual vaccinations. Our herd has genetics from some of the top producers in the industry, including bulls from Cold Creek Buffalo Company, Red Canyon Ranch and Horse Creek Bison. We have purchased top quality, award-winning females from the Black Hills Buffalo Classic for many years. Our ranch has been the recipient of several conservation and tree belt awards. We believe in being good stewards for the land and our animals.

Silver Creek Bison

Nolan & Nicole Miller • Box 355, Binscarth, Manitoba, Canada • (204) 532-2350

Silver Creek Bison, located at Binscarth, Manitoba, Canada was established in 1988. We have grown to a herd consisting of approximately 400 breeding cows, in seven separate groups. Breeding stock is selected on gain, confirmation, and most importantly, to preserve the natural healthy integrity of the species. Silver Creek is excited and honored to participate in this prestigious program, the DTBA Young Guns.

Skull Creek Bison

Wayne & Connor Buchholz • 16210 91st Street, Rhame, ND • (701) 279-6630

Skull Creek Bison is a fourth generation ranch that runs just under 300 head of buffalo. Our animals are culled for performance and reproductive traits. As calves our buffalo receive a full vaccination program including mycoplasma. All shots are boosted. Our herd is fueled by bulls from Sandy Limpert and David Lutt, with a few of our own bulls sprinkled in. Our cows have been rigorously culled based on performance and fertility for the last 24 years. Our cows are run on a grass diet year-round, providing the grass and the weather hold up. Range cake is used when needed and as a tool. Calves are weaned and finished in our own facilities. The cow herd at Skull Creek has undergone a complete mycoplasma vaccination program and to this point has remained mycoplasma free. We were honored to receive the DTBA Rookie and Producer of the Year in 2006 and 2010.

Slim Buttes Buffalo Ranch

Sandy & Jacki Limpert and Brodie Limpert • 14129 Limpert Road, Buffalo, SD • (605) 866-4846

SBBR has been raising buffalo for 25 years with a heavy commitment to genetic improvement. We currently run over 1000 mother cows in a holistic grazing manner. With over 30 pastures and extensive water development, the herd is moved every 7 to 10 days to fresh grass and water. In just a few years of practicing holistic grazing, SBBR has witnessed improved herd health, less fly problems, increased grass production and plant diversity. SBBR strongly believes in the principles of holistic grazing management from what we have seen with the improvement of the bottom line and soil and plant health.

SBBR is very proud to have received the DTBA Producer of the Year several times along with numerous awards over the years. A highlight was winning both the Young Gun and the Girlz Gone Wild classes in 2015.

2020 CONSIGNORS

Strategy Bison

Dave & Liz Schroth • 12217 Hwy 212, Nisland, SD • (605) 390-5851

Strategy Bison has been involved with the bison industry for the last 14 years, buying our first animals 7 years ago. Strategy Bison works to identify excellent performance traits in our animals to continue to produce strong, efficient, and well balanced bison that perform at a high level. Strategy Bison won the Girlz Gone Wild Performance Tested Heifer Class in 2016, and again in 2017 as well as having the third place bull in the Young Guns Performance Tested Class and were named DTBA Producer of the Year which is a testament to our established program.

Tatanka Hills

Kevin & Joan Stormo • 19123 US Highway 81, Lake Norden, SD • (605) 785-3727

We started raising bison in 1988 with animals from Custer and Doc Ken Throlson. Many of our breed bulls are purchased from GTSS and DTBA sales. We have won DTBA Producer of the Year as well as many other awards over the years at both the GTSS and DTBA. Tatanka Hills most recent awards are the 2016 Silver trophy yearling bull at the GTSS and first place Young Guns Yearling bull at the 2016 and 2017 DTBA Young Guns Yearling Breeding Bull Challenge. We continue to strive to produce top quality animals.

Tatonka Ranch

Trent Schwitzer • Box 3639, Melville, Sask. • (250) 263-3152

Tatonka Ranch has been in the bison industry for 33 years. The ranch is currently running five single sire pastures to develop a breeding program for animals with good confirmation and good gainability on grass and in feedlot situations. The ranch has a genetic battery of Plains, Wood and Wood cross animals. Stop by the ranch anytime!

Girlz Going Wild Yearling Heifer Challenge

Host Ranch - Jumpoff Buffalo Ranch, Buffalo, SD

The Girlz Going Wild yearling heifers were run in a 1,000-acre, isolated pasture during their time on the ranch. They had access to two fresh water tanks with three dams. Additionally, two spring fed creeks run right through the middle of the pasture and splits the 1,000 acres in half.

The heifers were cake truck trained this summer so that we could run them back across the highway to the working facilities. They are a been there, done that group of heifers from a management aspect. They have been exposed to a couple of different cake trucks, utility vehicles, loaders, feed wagons and took it all in stride.

These heifers came off grass in such good condition we didn't want to push them on feed as we felt there is so much potential for growth in this group of heifers. There is also the desire to have a group of heifers that are ready to go to work after sale time. They were on a free choice hay and limited grain diet and were provided cake for mineral consumption. This is a fantastic set of heifers and will make a great addition to anyone's herd.

Young Guns Yearling Breeding Bull Challenge

Host Ranch - Heartland Bison Ranch, Rugby, ND

The Young Guns bulls began arriving at Heartland Bison Ranch around the second week of April. They spent just over three weeks together, acclimating as a group before being processed to go to grass. During this time, the bulls had access to quality prairie hay, fresh water and 12 tons of pellets in two self-feeders to make sure they could recoup some of their weight lost during the move up to the ranch.

On May 12, the bulls were weighed, retagged and given a 7-way and Dectomax wormer and moved out to pasture. While on pasture, the bulls had access to clean fresh water, ample grass and Redmond Mineral. By mid-July, we were once again experiencing drought conditions on the ranch. The bulls were rotating every seven to nine days through eight paddocks to ensure ample grass. In early August, lack of moisture dictated that we bring the bulls in earlier than anticipated. On August 18, the bulls were brought in off grass, wormed with Dectomax and weighed before beginning their feed test. The bulls were on grass 96 days, just nine days short of our 105 day target.

On feed, the bulls began to really grow. We began to get a substantial amount of rain in September, followed by an October blizzard that left us with three feet of snow! We kept the bulls on high, dry ground in a large catch pen to keep them out of the mud. The hay for the bulls was all sourced from the same field and their pelleted ration was 14.1% protein with a mineral pack. The bulls gained well despite the wet conditions, and overall, the class almost mirrored what we did last year.

On December 8, the feed test concluded at 112 days and the bulls were weighed to give us data to complete the performance scoring for Feed ADG and total gain for the class. The bulls were worked on January 7 for the sale. They were semen, TB and Brucellosis tested and given a wormer and mycoplasma shot. Since January 10, the sale bulls have been backed off their feed regiment to grass hay and some whole oat bales, ensuring they are ready to go to their new ranches.

Overall, we believe that this group of bulls can help any type of producer put better genetics into their operations. The depth of quality in this class is exceptional and this will once again be the top sale in the nation for quality breeding bulls. We would like to express our deepest gratitude to the consignors for once again trusting their animals in our care and to the DTBA for continuing to provide this format for buyers to have access to some of the best bulls to hit the market.

SOCIAL CLUB
HAYWARD VALLEY HOUSE
BlackHillsRetreats.com

The Hayward Valley House is a vacation rental in the southern Black Hills of South Dakota. Located five miles east of Keystone, or nine miles west of Hermosa on Highway 40, in the historical village of Hayward, it is located just minutes away from Custer State Park.

If you are experiencing too much buffalo or not enough bison, a few days at the Hayward House will clear the clouds. The house features three bedrooms, three bathrooms, two queen foldouts, two large living rooms, a large kitchen, social club and rehab center!

For more information, contact
Blackhillsretreats.com or call (605) 391-1872.
