Hello, I'm Lindsey Hester. I am glad to be serving on our DTBA Board as Treasurer. I have had a blast getting to know you guys the past few years. I look forward to more years with you all!

I live in Kremmling, CO with my husband and two kids. I am a Registered Dietitian by education with an undergrad in Human Nutrition & a Masters in TCOB (Taking Care of Business ;), and I am also a Licensed Teacher in Elementary Ed. We own and operate Hester's Log and Lumber and our real estate company.

We came into buffalo from buying a neighboring parcel of land and needed to keep it ag. Yes, we could have gotten a goat but my husband loves buffalo. From having no livestock experience to now owning nine buffalo calves, the learning curve was sharp and fast. It took a few years to land where we saw our place in the buffalo industry to be. We are a direct retailer of homegrown, grain finished buffalo meat.

I hope to be effective as Treasurer with my experience in bookkeeping, small business, adaptability, and discipline. The DTBA and its members have been crucial for the encouragement, knowledge, and relationships needed to help keep our business sustainable. We do not need to go about the buffalo business alone - we have each other! Being a part of the DTBA has been great and I am happy to be serving on our Board.
