Seamus Culhane***Sale Day Weight - 1200 lbs.**

DTBA Tag #2 is sired by Dakota Gold, which was a top Young Guns Bull from Cammack Buffalo Ranch. He was one of our best grass gainers and very well balanced. Dakota Gold throws excellent, moderate-framed bulls and heifers that are easy keepers, and this bull is a perfect example of his traits. The dam is a Heartland Bison cow.

Heartland Bison bulls are put through a performance test based on making the cutoff of the top 10% of our bull calves, and a minimum weaning weight of 500 lbs. The bulls are grouped together and put on good prairie hay and a 12% protein screening pellet until they are worked to go out to grass. On grass, the bulls only have access to a mineral lick, grass, and good water. The feed test comprises the same 12% screening pellet, good prairie hay, and millet. Bulls receive Dectomax, 7-way, and Pyramid 5 as part of their vaccine schedule. Heartland Bison will guarantee the first year of breeding for each of their bulls.

This bull comes out of the Platinum herd and was sired by UNBEATABULL, who goes back to the great herd sire BIG N RICH from Cold Creek. The dam Orange 1607 goes back to the spectacular Colorado Bison herd. Weaning weight on November 24th was 524 pounds. Top grass gains of 1.22 pounds a day and then coming in and gaining 2.61 pounds a day on the feed test. On December 22, his final weight was 1272 lbs. He is John's top pick of the bull pen this year. He is very impressive from all angles and has great depth all the way back.

DTBA Tag # 17 is sired by Dakota Gold, which was a top Young Guns Bull from Cammack Buffalo Ranch. Dakota Gold throws excellent, moderate-framed bulls and heifers that are easy keepers, and this bull is a perfect example of his traits. The dam is a Heartland Bison cow.

Heartland Bison bulls are put through a performance test based on making the cutoff of the top 10% of our bull calves, and a minimum weaning weight of 500 lbs. The bulls are grouped together and put on good prairie hay and a 12% protein screening pellet until they are worked to go out to grass. On grass, the bulls only have access to a mineral lick, grass, and good water. The feed test comprises the same 12% screening pellet, good prairie hay, and millet. Bulls receive Dectomax, 7-way, and Pyramid 5 as part of their vaccine schedule. Heartland Bison will guarantee the first year of breeding for each of their bulls.

Weaned at 433 lbs. on 10/24/24, and he gained an average of 1.72 lbs. overall on grass and feed. He weighed 1140 pounds on 1/12/26 and comes from our Diamond Ranch herd. Sired by one of our ranch-raised bulls, who is the grandson of the 2014 Young Guns Grand Champion (Cheyenne 3670), with great genetic diversity, influenced by foundation herds including Fort Niobrara, National Bison Range, and Wind Cave National Park. His dam has great levels of genetic diversity, including influence from Wind Cave National Park, Book Cliffs National Monument, and Rocky Mountain Arsenal Wildlife Refuge foundation herds. Semen test passed on 1/12/26 with scrotal size 30.5.

This bull comes out of our Platinum Herd and was sired by the deep-bodied TYPHOON, who was out of the great herd sire BUZZ. The dam is Orange 1714, which came from the great Colorado Bison herd. The bull had a weaning weight of 516 lbs. on November 24, and an excellent grass gain of 1.10 lbs. per day. This bull did 2.75 lbs. a day on the feed test and a final weight of 1266 lbs. on December 22. This bull will add muscle from front to back and should make some thick females.

This bull's sire is "Cec", the 2019 NBA Gold Trophy Show & Sale overall champion. Cec was raised by Wolverine Bison. Cec is one of the most structurally correct herd bulls in our breed bull battery. We have kept multiple bulls and heifers out of him. This bull has his sire's looks and good numbers as well. This bull weaned at 537 pounds and gained 1.9 pounds/day as a calf. After coming off grass and going back on feed, he had an ADG of 2.73.

Management and Environment.

Weaning – post weaning bulls had access to grass hay, and corn/protein pellet mix from 11/7/24 to 5/20/25
